

SUSTAINABLE BUILDING DESIGN FOR TROPICAL COUNTRIES

UN-Habitat invites you to a 3-day course on Green Building and Energy Conservation. The workshop will be held on the 20th-22nd October 2014 at the Courtyard Protea Hotel (Seaview), Dar es Salaam.

The workshop is aimed at building practitioners architects, engineers, developers, project managers as well as students. The workshop will be jointly held by experts from UN Habitat and the Politecnico di Milano, Italy.

TOPICS

- Principles of thermal, visual and acoustic comfort
- Designing with the local climate
- Solar Geometry: sun charts, shadow masks and software tools
- Passive design (focused on Tanzanian climatic zones)
- Window design and day lighting optimization
- Locally resourced, sustainable building materials.

CASE STUDIES

Tanzanian Case Studies of Building
Energy Audit Findings of Tanzania Building
