

Briefing on the  
Urban Legislation, Land, and Governance Branch

# The Branch and its Objective

To support national governments, local authorities and Habitat Agenda Partners to put in place systems for improved access to land, to have enabling legislation, and have effective governance to enhance equitable sustainable urban development.

Legislation ● — ● Land ● — ● Governance

# Legislation, Land and Governance

## The foundations of urbanisation

# Urban Legislation Unit

Objective: to improve the effectiveness of urban law in supporting the delivery of urbanisation and urban development

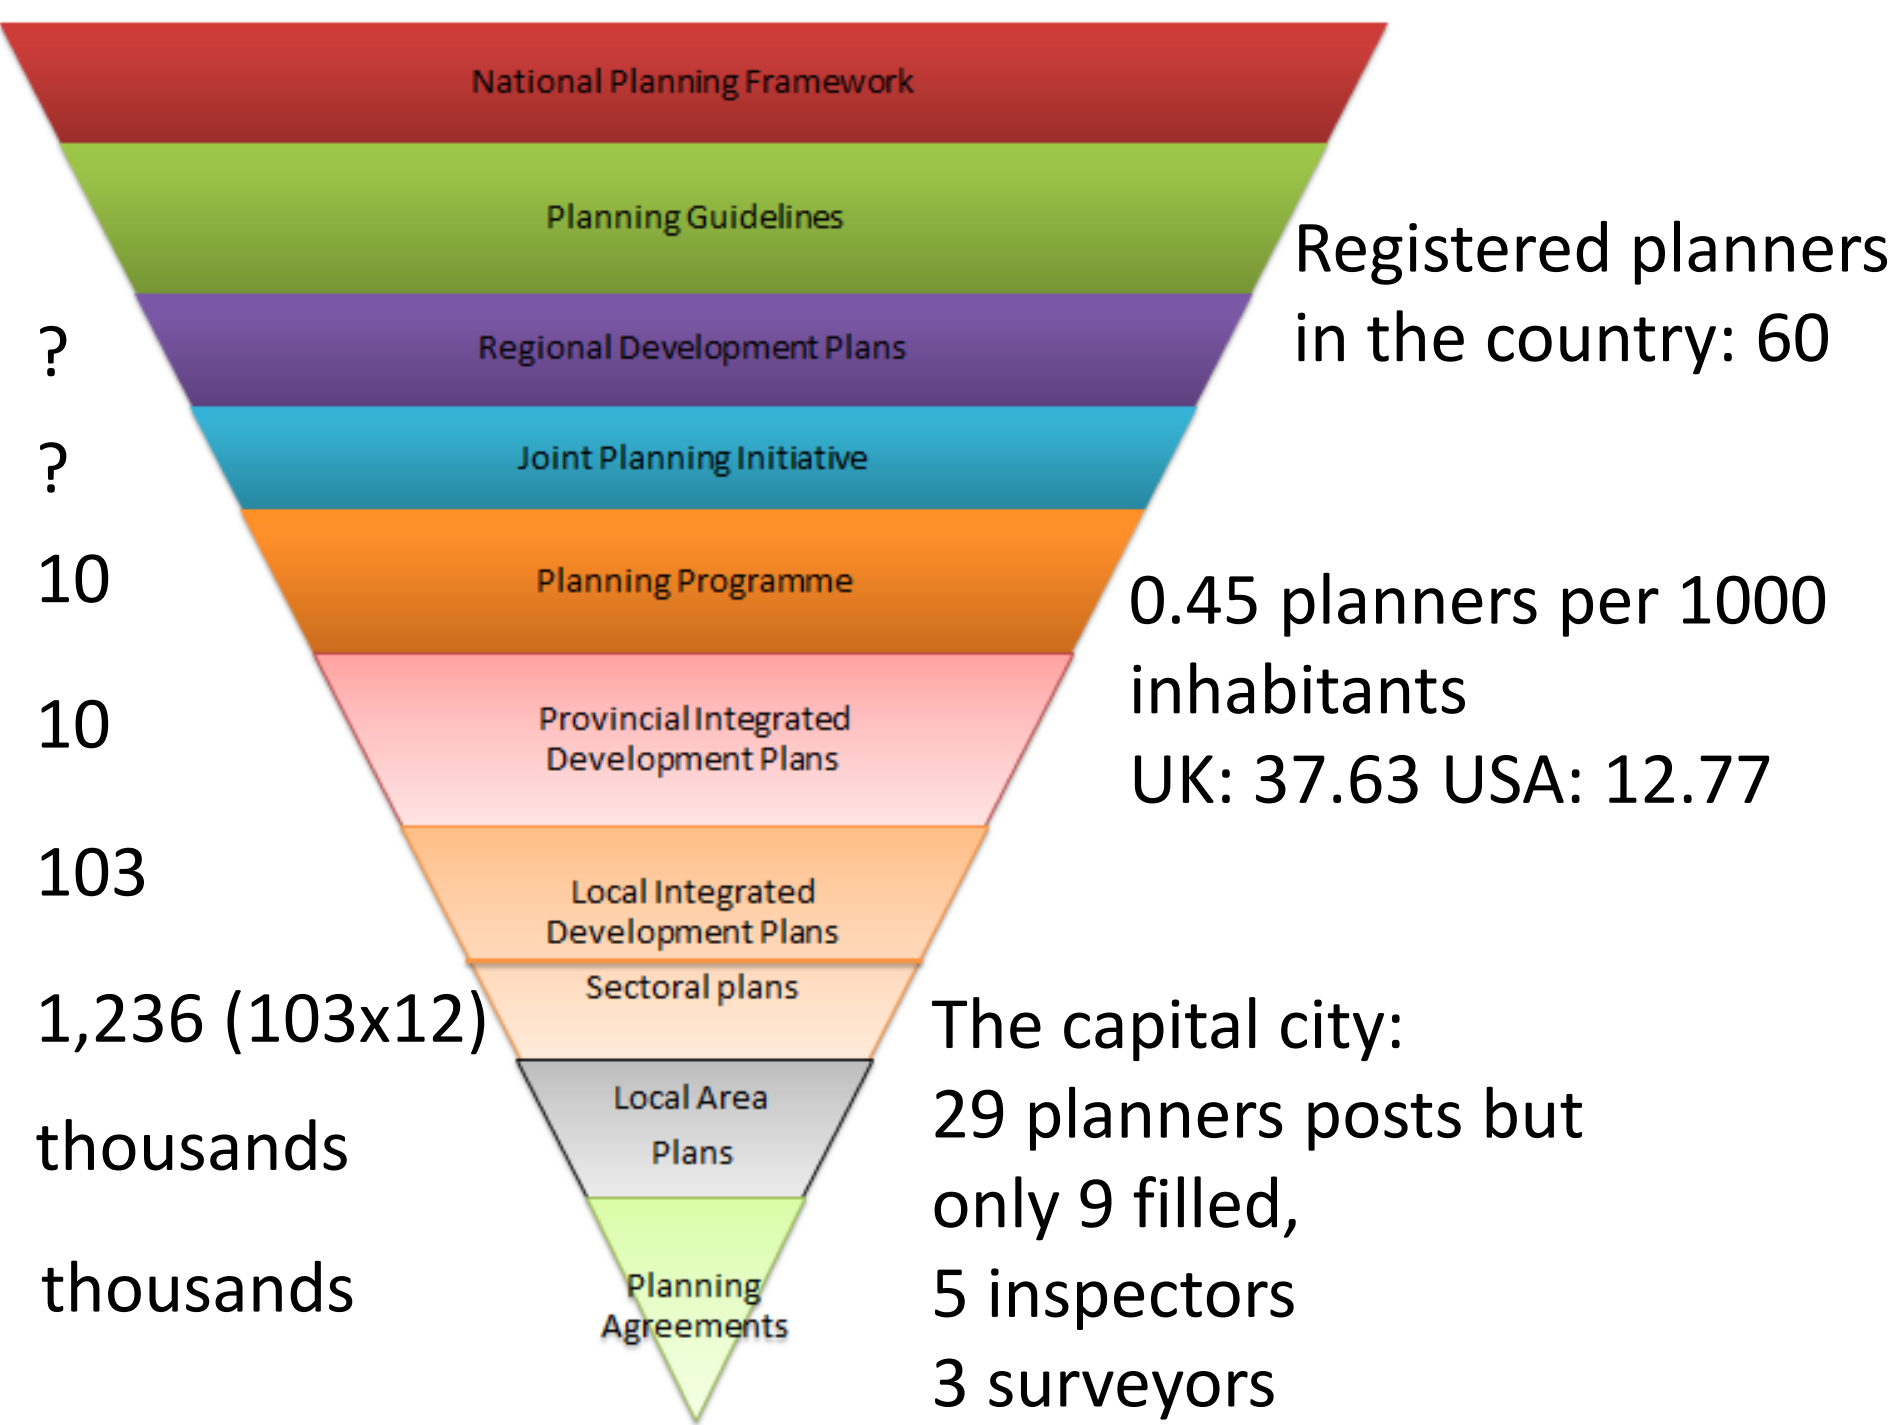

Central challenges:

- Lack of awareness of the role of urban law in delivering policy
- Limited resources and capacity for implementation of law
- Lack of prioritisation in design and implementation of law
- Poor design of law
- Inadequate follow up in implementation and reform of law

Planning law  
*is ineffective, inefficient,  
is not implemented,  
is unable to guide urban  
development*

# Integrated approach to urban development

Urban growth boundary

Planning

Regulations

Finance

**Understanding the link between law and policy as a means of delivering impact and building drafting skills for improving the quality of urban legislation**

# Participatory and Inclusive Land Readjustment (PILaR)

- Integrated approach to increasing serviced land supply incorporating human rights based guarantees: “participatory in process and inclusive in outcome”

- Joint initiative between 5 units: Local Government, Legislation, Land, Municipal Finance and City Planning and Extension

# \* Environmental impact assessments

6 case studies: Brazil, NYC, Durban, Kampala, Colombo, Fiji

- Don't influence the decisions
- don't have monitoring and post project liability

# \* Slum Upgrading

Security of Tenure

# Legislation Unit work and collaborations

# ***“UN-Habitat’s Global Activities on Land”***

**Land & Global Land Tool Network Unit**

**13 October 2017**

## Land challenge

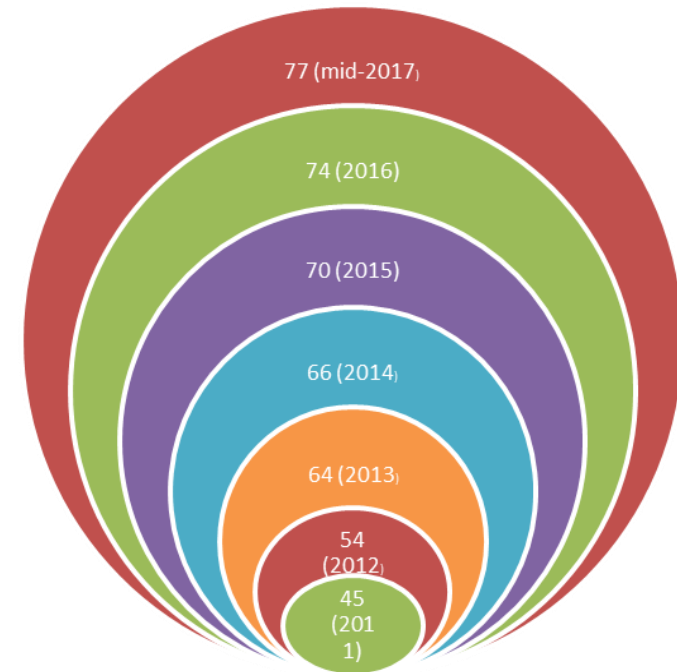

- 70 percent of population in developing countries have no land documents
- Conventional land administration system only has 30% coverage
- It would take 600 years or more to achieve full coverage
- Huge gender and youth disparities – less than 2% of land owned by women
- Land documents supply security of tenure & information for land management (e.g. city management, planning, land readjustment, city extensions, slum upgrading, etc.)
- Cannot do this at scale without the land systems and land information
- Development of alternative approaches and solutions is necessary.

## UN-Habitat and Global Land Tool Network

- UN-Habitat partnered with key land champions in 2006 to form GLTN and address the land challenges, fill the gap and create alternative land tools
- The Unit supports UN-Habitat's normative and operational work through regional offices
- Land reform, inclusive land tenure approaches (continuum of land rights) and fit-for-purpose land administration
- Funded by Norway, Sweden, Netherlands, Switzerland, IFAD
- Now 77 partners
- Significant success in the past 11 years

# KEY ACHIEVEMENTS/ OUTCOMES - GLOBAL

**Partners, facilitated by Land/GLTN Unit, significantly contributed to inclusion of land in the new international development agenda**

Land has been included in the New Urban Agenda: it captures well the role of land in sustainable urban development, clearly highlighting the need for tenure security for all recognizing the plurality of tenure types, calling for sustainable use and management of land and natural resources, addressing land value capture, and hence providing critical guidance on responsible land governance interventions for the next 20 years.

# KEY ACHIEVEMENTS/ OUTCOMES - GLOBAL

Partners, facilitated by Land/GLTN Unit, significantly contributed to inclusion of land in the new international development agenda

- SDGs 1, 2, 5 and 15 explicitly include land and it implicitly contributes to SDGs 11, 14 and 16. Indicator 1.4.2 on tenure security and other land related indicators have been classified under Tier III indicators in the SDGs monitoring framework. We are undertaking strategic work to develop comparable methodology for data collection, analysis and reporting.
- The development of the methodology is expected to be finalised by the end of 2018 to fully secure land monitoring in the SDGs monitoring framework.
- UN-Habitat and the World Bank are custodian agencies for this indicator

## KEY ACHIEVEMENTS/ OUTCOMES - GLOBAL

### Recent UN-Habitat Governing Council resolutions recognizes land and inclusive tenure approaches including post conflict contexts

- Resolution GC/23/17 on sustainable urban development through expanding equitable access to land, housing, basic services and infrastructure calls *“to promote security of tenure for all segments of society by recognizing and respecting a plurality of tenure systems ..... and intensifying efforts to achieve secure tenure in post-conflict and post-disaster situations.”*
- Resolution GC/25/L.6 on the Implementation of the Strategic Plan for 2014-2019 *“.....continue to support and reinforce ..... efforts of the United Nations system, through the Global Land Tool Network, to bring coherence and conflict-sensitive approaches to land issues, including through a plurality of land tenure systems for all segments of society and alternative forms of land administration.”*

# KEY ACHIEVEMENTS/ OUTCOMES - COUNTRY

**APPROXIMATELY 200,000 HOUSEHOLDS HAVE IMPROVED PROSPECTS TOWARDS TENURE SECURITY IN PRIORITY COUNTRIES AS A RESULT OF THE GLTN PHASE 2 PROGRAMME**

**Comprehensive information about informal settlements, empowering communities to resolve land disputes, negotiate with authorities, receive basic services and infrastructure, etc.**

- Uganda - 89 settlements (181,604 households) in 14 municipalities profiled, enumerated and mapped
- Philippines – 122 settlements (17,056 households)
- Zambia – 434 households
- Kenya – 2,567 households in Nairobi and Mombasa plus LIMS in Turkana County

## **Issuance of certificates of occupancy**

- DRC – 600 households in North Kivu (for resettlement of returnees)
- Zambia – 40 households in Chamuka Chiefdom
- Kenya – 1,112 households in Mombasa
- Iraq – 300 households of displaced population in Sinjar province (first tenure document residents have been given since they settled in the area in 1970s)

# KEY ACHIEVEMENTS/ OUTCOMES - COUNTRY

## APPROXIMATELY 200,000 HOUSEHOLDS HAVE IMPROVED PROSPECTS TOWARDS TENURE SECURITY IN PRIORITY COUNTRIES AS A RESULT OF THE GLTN PHASE 2 PROGRAMME

- **Land dispute resolution**
  - DRC – 845 land disputes resolved
- **Inclusion in national slum upgrading programmes**
  - Kenya – Mashimone settlement (1,600 households) included in the Kenya Informal Settlement Improvement Programme
- **Comprehensive information about small scale farmers within large scale agricultural investments schemes**
  - Uganda – 5,700 small holder farms enumerated and mapped
  - Kenya – 667 farms

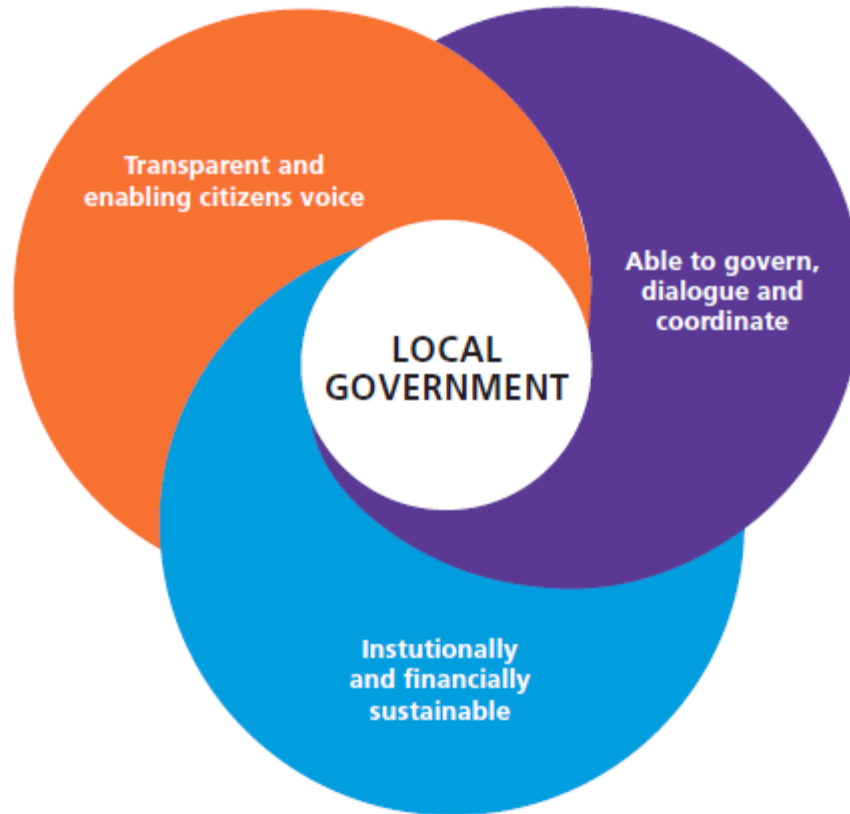

## PROVIDING KNOWLEDGE AND TOOLS TO DELIVER THE GLOBAL DEVELOPMENT FRAMEWORKS – SDG'S AND NUA

- Implementing the New Urban Agenda
  - *Harmonizing frameworks, supporting with tools and capacity development to address land and security of tenure challenges*
- Global Land Indicators (including the SDG indicator 1.4.2)
  - *Delivering frameworks for country level monitoring through GLII*
- Providing tools for national and local governments
  - Tools to know the context and embrace all land relationships*
  - Land Administration and Information system reform tools*
  - Land based financing*
- Strengthening capacity of stakeholders
  - *Delivering training and learning platforms for all*

# institutionally and financially sustainable local governments

ABOUT ACTIVITIES EXPERIENCES CATALOGUE PUBLICATIONS PARTNERS NEWS & AGENDA

Addressing the challenge of applying SMART technologies and innovation in municipal management.

Shortening the time lapse between paying taxes and receiving the services: breaking the circle of informality

**17.1** strengthen domestic resource mobilisation, including through international support to developing countries to improve domestic capacity for **TAX AND OTHER REVENUE COLLECTION**

mobile phones as instruments of active citizenship

sensors or smart cards are a chance to develop connected inclusive and more efficient territories for municipalities

# transparent local governments enabling citizen voices

How to transform  
municipal revenue

Into more efficient and  
transparent public services

[www.urban-glass.org](http://www.urban-glass.org)

Governing without the citizen has become virtually impossible, but the local government need TOOLS to establish channels of communication.

Urban GLASS supports local government in preventing and fighting corruption in urban management by promoting transparent, accountable and participatory cities.

Urban GLASS has successfully included transparency within the political priorities of UCLG with the creation of a Community of practices on Transparent and open local government.

**UNITED  
AGAINST  
CORRUPTION**

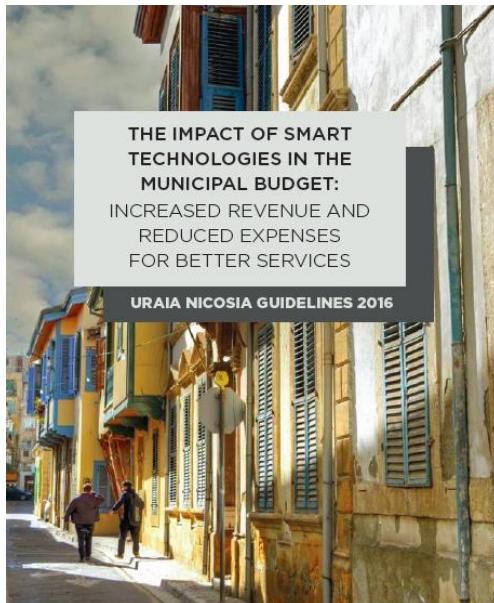

**16.5** substantially reduce  
**CORRUPTION** and  
bribery in all its forms

# Achievements 2014 - 2017

Increased capacity of local government associations to support their members in issues related to:

Better use of Public-Private Partnerships for SMART city management

Transparency,  
accountability and open  
local government

Innovation in municipal  
management and finance

# Achievements 2014 - 2017

Increased capacity of participating city officials, Mayors and local decision makers in:

- Governing with the citizen
- Fighting corruption in urban development
- Mobilizing local resources and increasing revenues
- Promoting urban governance
- Implementing the SDGs at local level

KAMPALA

Interview

## Video interview - Kampala

Agatha Ainomugisha, Business officer, shares the experience of Kampala in the use of SMART technologies to improve municipal management. The video was taken in Madrid, February 2017.

**LOCALIZING THE SDGs**

ABOUT | PARTNERS | CONTACT US | ENGLISH | FRANÇAIS | ESPAÑOL | SELECT LANGUAGE

DISCOVER TOOLS | LIBRARY | DISCUSS & ENGAGE

**TOOLBOX FOR LOCALIZING THE SUSTAINABLE DEVELOPMENT GOALS**

A tailor-made goldmine of practical content awaits for you to use

Discover powerful tools and resources, together with the real experiences and opinions of many developers

Sign Up Here To Join Our Community

**WHY SHOULD YOU BE HERE?**

**DISCOVER TOOLS**  
Across the world, governments and organizations are working within their specific local realities to drive sustainable progress. There is a lot of powerful learning that we have condensed here into practical, flexible tools & guides for you to use.

**CONTRIBUTE DOCUMENTS**  
Have you developed relevant insights that might be helpful to other local actors? Add to our library and get featured! We seek to build an online repository of development solutions and practices.

**SHARE STORIES**  
Stories have the power to connect us with the common threads and journeys of others. A good story is also a strong currency for interactions. Share your story and establish a deeper relationship with our community.

**DISCUSS**  
Open up conversations on pertinent 'localizing' issues and ideas, and seek multiple perspectives. You may suggest your topic, and we might handpick your organisation to moderate our next discussion!

**POST EVENTS**  
Promote your events with a listing on our calendar. We feature events that aim to localize the SDGs worldwide.

## Learning Module 1: Localizing the SDGs

LOCAL AND REGIONAL GOVERNMENTS' REPORT TO THE 2017 HLPF

NATIONAL AND SUB-NATIONAL GOVERNMENTS ON THE WAY TOWARDS THE LOCALIZATION OF THE SDGs

**THE SUSTAINABLE DEVELOPMENT GOALS**

WHAT LOCAL GOVERNMENTS NEED TO KNOW

# Partnerships

# ***Safer Cities***

**Approach to Urban Crime,  
Violence**

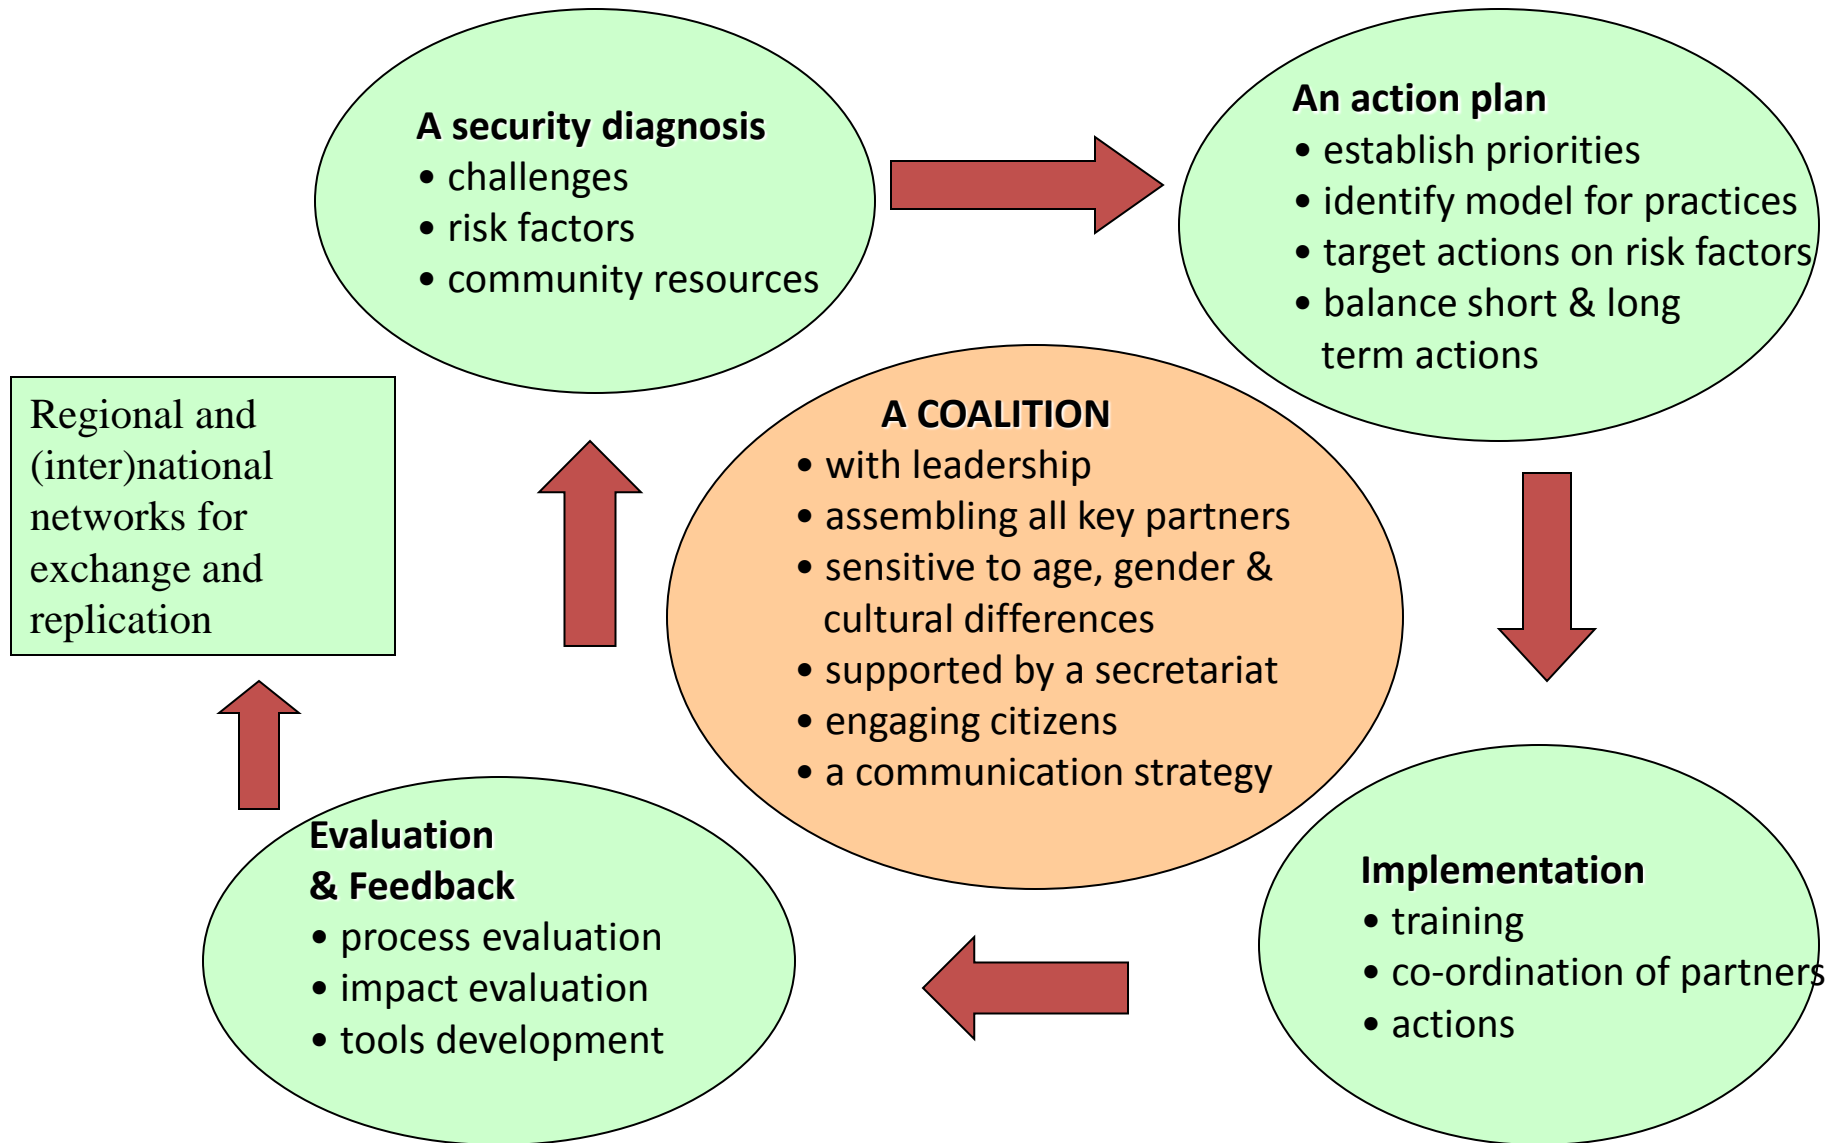

# Traditional response vs new approach

- Focusing on the criminal justice system (police, tribunals, prisons)
- Focusing on major crime, leaving petty crime and *'incivilities'* without response
- Targeting effects instead of causes - reactive instead of preventive
- Often short term and non sustainable results

- Safety as 'common good' and key to good governance & to sustainability
- A role for everybody in building local safety, respecting everybody mandates
- Need to target causes to reach lasting results
- Prevention is better than cure
- No one size fit all solutions

# Safer Cities Strategy: Key Elements For Effective Implementation

# City Safety Labs as Pilot Action Sites

## Knowledge

City Lab will connect cities to new and inspiring sources of knowledge that can be adapted to the local contexts to inform more effective policy responses as well as practice.

## Learning

Providing learning opportunities for the urban practitioner - using existing context specific practices; action-learning seminars; city to city learning through structured exchange visits and other means.

## Supporting Innovation

Testing innovative approaches in cities in a range of areas and validate their applicability.

## Facilitating Solutions

Provider of high quality technical expertise and facilitator of change within cities . Drawing on partner networks and network cities– arranging and sequencing support and processes to provide a sustainable solution.

# Safer Cities

## The launch of the Global Network on Safer Cities (GNSC) in 2012

- **Steering Committee** of Mayors and International Partners
- **Technical Advisory Group** of Individual Experts and Practitioners – connected to the Technical Working Groups
- **Partners Consultative Group** - connected to the UN-Habitat Governing Council
- **Cities Assembly** - connected to the World Urban Forums

# Global Partnership Framework of Cooperation on ‘Safer Cities’

Building on the Global Network on Safer Cities and with the development of UN system-wide Guidelines on Safer Cities

**Post 2015 - SDG 11:** “*Making Cities and Human Settlements Safe, Inclusive, Resilient and Sustainable*” – **Safer Cities in the New Urban Agenda** (Safer Cities 2.0) and NUA Para 103 – Integrating prevention in urban strategies

[www.unhabitat.org](http://www.unhabitat.org)

**UN HABITAT**  
FOR A BETTER URBAN FUTURE

# Safer Cities: Achievements

- Formulated Prevention Projects in various cities in Africa, Asia Pacific and Latin America
- Tools adapted, tested, documented and disseminated on the local approach and on prevention issues
- Networks of cities active in this field
- Acknowledgment of the role of local authorities in the international and national debate
- Enabling National policies in support to local community-based interventions
- Growing understanding within the UN on the local articulation of the prevention of violence and crime
- GA and GC Resolutions towards Action for the Creation of Safer Cities

# ULLG budget and staff (2017)
