Figure 8: Earmarked Expenditure Distribution

5. Fund balances and reserves

5.1. Core Funds

Total Core fund balances and reserves at the start of the year amounted to \$21.8 million with \$6.1 million (28.0%) in the Foundation General Purpose account and \$15.7 million (72.0%) in the Programme Support account. The funds included mandatory reserves of \$4.6 million and \$2.9 million respectively. Total core fund balances at the end of the reporting period amounted to \$17.6 million representing \$2.6 million for the Foundation General Purpose account and \$15.0 million for Programme Support account, inclusive of the mandatory reserves. No fund balances are realised for regular budget.

5.1.1. Foundation general purpose fund balances

The total fund balances of \$2.6 million represent the mandatory general reserve of \$2.6 million, a reduction from \$4.6 million following Governing Council resolution. An inter-fund transfer of \$0.4 million was made from Programme Support account to regularize the fund balance in line with the Executive Director’s authority on administration of Programme Support revenue. An additional inter-fund transfer of This means that the spendable portion of fund balances was depleted at the end of the year.

5.1.2. Programme support fund balances

The Programme support fund balances of \$15.0 million include a mandatory reserve of \$2.9 million. An inter-fund transfer of \$0.4 million was made to the Foundation General Purpose account. Spendable fund balances available at the end of the period amount to \$12.0 million. At the current rate of expenditure and commitments, these reserves are adequate to cover one year of operations in the event there is a decline in the inflow of Programme support revenue. This is an adverse situation considering that Programme Support has also been called to bail out the troubled Foundation General Purpose.

5.2. Ear-marked Funds:

Total ear-marked fund balances and reserves at the start of the year stood at \$372.2 million represented by \$109.0 million (29.3%) in the Foundation Special Purpose and \$263.2 million (70.7%) in the Technical Cooperation account inclusive of reserves of \$4.0 million and \$11.4 million respectively. Fund balances at the end of the reporting period amounted to \$350.9 million representing \$96.8 million and \$254.1 million for the Foundation Special Purpose Technical Cooperation respectively inclusive of reserves.

5.2.1. Foundation special purpose fund balances

The Foundation Special Purpose fund balances of \$96.8 million include a reserve of \$4.0 million. This means that spendable fund balances available at the end of the period amount to \$92.8 million.

5.2.2. Technical cooperation fund balances

The Technical cooperation fund balances of \$254.1 million include a reserve of \$11.4 million. This implies that spendable fund balances available at the end of the reporting period amount to \$242.7 million.

6. Conclusion

A summary of the revenue, expenses, fund balances and reserves is provided in Annex A, while the comparison of actuals and budget is shown in Annex B. Details of non-earmarked and earmarked contributions are given in Annexes C to F.

The financial position of the Foundation General Purpose reached the lowest point at the end of the period and is in dire need of a cash injection. Across the core budget, UN-Habitat is likely to incur a deficit of \$4.2 million for 2017, which has further depleted fund balances. In order to resolve a situation which has been unsustainable for some years, there is an urgent need for a Member State decision to address the financial challenges faced by the Foundation General Purpose fund and core budget as a whole if basic mandated operations are to continue in 2018 and beyond.
