More News and Updates

Training on Financing Citywide Upgrading

PSUP successfully conducted training on a new Financing Strategy Toolkit at the [Fifth Pacific Urban Forum](#) (PUF5) in Nadi, Fiji, in the first week of July 2019. The aim of the training is to provide guidance on how to structure interventions strategically to address the full magnitude of the need for slum improvement and prevention at the city and/or national level. A similar regional training is scheduled for Caribbean countries from 15-18 October, 2019, in Georgetown, Guyana.

A Caribbean strategy for Informal Settlements Upgrading

In July, our team went on a mission to the Caribbean region for several weeks to discuss a **Caribbean strategy** for the informal settlements upgrading with local stakeholders in seven countries such as Jamaica and Haiti. This strategy is primarily about building capacity, collecting data, developing innovation and sharing experiences - as well as guiding a city-wide and national strategy for the informal settlements upgrading of small island states in the Caribbean.

A draft of the strategy will initially be shared with stakeholders at a regional training workshop in **October** in **Guyana**. It will be also presented on **22 October 2019** at the **28th General Assembly of MINURVI** in San Jose, Costa Rica.
