

## **CALL FOR PROPOSAL**

The purpose of the Call for Expression of Interest is to solicit interest from existing or prospective Implementing Partners that wish to participate in UN-Habitat operation and contribute complementary resources (human resources, knowledge, funds, in-kind contributions, supplies and/or equipment) to achieving common objectives as outlined below and subsequently agreed in an Agreement of Cooperation

### **< Building Resilience Amid COVID-19 by Supporting Access to Basic Infrastructure through Shelter provision in Kalobeyei >**

**Size of grant: 157,500 US\$**

**Purpose of CFP:** Since COVID-19 was first reported in Kenya in early 2020, UN-Habitat has been providing support to host and refugee communities living in and around Kalobeyei Integrated Settlement in Turkana County. To this regard, an implementation partner is sought to support in building COVID-19 resilience by supporting access to basic infrastructure through shelter provision.

**Submission Start Date: 26<sup>th</sup> April 2021**

**Submission Deadline Date and time: 10<sup>th</sup> May 2021**

#### **Project Key Information**

- UN-Habitat Project title : ‘Building Resilience Amid COVID-19 by Supporting Access to Basic Infrastructure through Shelter provision in Kalobeyei
- Locations
  - Town/City: Kalobeyei
  - Country: Kenya
- Anticipated start date: 1<sup>st</sup> August 2021
- Estimated duration of project in calendar months: 12
- Maximum proposed value in US\$: 157,500
- Lead Organization Unit: Planning Finance and Economy Section, Urban Practices Branch

#### **Brief Background of the Project**

UN-Habitat's work has been instrumental in promoting good practices for promoting integration between refugee and host communities. In line with this mandate, UN-Habitat has been supporting member states including Kenya in developing well-planned and efficient human settlements, with adequate access to housing, infrastructure, and universal access to employment and basic services such as water, energy, and sanitation.

In 2016, UN-Habitat partnered with UNHCR and Turkana County Government to prepare an integrated spatial development framework including a spatial plan for Kalobeyei Settlement that would reduce conflict and promote social cohesion among communities. UN-Habitat was engaged in designing to address host community stabilization and development including addressing the continued influx of refugee and host communities or risk of unplanned growth around the settlement which could undermine long-term sustainability imperatives which would bring about land-conflict issues between refugee and host communities.

Additionally, UN-Habitat has been providing support to host and refugee communities living in and around Kalobeyei Integrated Settlement in Turkana County since COVID-19 was first reported in Kenya.

The purpose of this call is to partner with an implementing partner to design and construct improved and locally adaptable shelters in a bid to reduce the housing deficit and prevent future congestion of existing shelter units. This will boost compliance with set COVID-19 regulations and build resilience among the communities of Kalobeyei.

### **Main activities and outputs**

The primary components of this project include: (i) Conducting an adequacy assessment of the existing shelters with regards to design, functionality and quantity. (ii) Implementation of a participatory construction of priority shelter units (iii) Implementation of strategies for self-maintenance of the shelters by the users.

The implementing partner will undertake main activities as follows, but not limited to:

- Plan and implement a shelter needs assessment across different user groups including elderly persons, people with disabilities and special needs, women etc.
- Plan and implement a collaborative assessment to establish possible areas of improvement to shelter design and construction.
- Prepare an inception report based on the assessment findings and including recommendations of suitable global and regional best practices.
- Implement a participatory process to provide design and construction improvements where needed, building on existing shelter designs and typologies.
- Implement a participatory construction exercise to develop priority shelter taking into consideration special user groups (abovementioned and more) to build COVID-19 resilience.
- Work closely with the user communities (refugee and host community members) to impart basic shelter maintenance skills.
- Work closely with UN-Habitat to conduct regular stakeholders' validation and consultation meetings throughout the project process.
- Ensure close collaboration with UN-Habitat office to align the implementation process with UN-Habitat approaches and to facilitate community participation in all aspects of the project.

- Prepare a detailed report on design and construction recommendations of the priority shelters, including maintenance processes, which can be shared with a global audience and also utilized within the host and refugee community.
- Provide logistical support necessary to implement the project.

### Risk Analysis

Operational risk, where locally controlled groups can go on strike or attempt to sabotage the process.	Low	International staff/consultants will take the computer-based training "security in the field". The training makes the staff/consultants aware of the possible risks and how to deal with them
Armed conflict might at a certain stage cause postponement or delay at work.	Low / Medium	Depending on UNDSS report on conflict areas, the staff will stop visiting the sites until they are cleared by UNDSS
Social, cultural risks relevant to the possible tension between refugees from different ethnics among these groups themselves and with hosting communities.	Medium	Preventive measures to be considered in the community mobilization, training sessions and other organized events in addition to support together with local partners
Health risks due to Covid - 19	High	Measures recommended by WHO, Kenyan ministry of health, JMS and other applicable medical and government agencies to be adhered to strictly.
