Urban Climate Change Action

In support of a Green, Resilient and Inclusive Recovery

Urban climate change, diplomacy, policy, planning and capacity building work since 2010
 Operational Portfolio is rapidly growing
 Building on the climate change portfolio green recovery planning is supported and integrated urban and community resilience is supported

Since 2009, we have worked with:

19 countries

53 cities

276 communities

And have reached:

431,651
 direct beneficiaries through infrastructure and upgrading projects, & over
17.8 million
 indirect beneficiaries through city-level policies, plans and assessments
