

PRESS RELEASE

NEW DATES FOR THE AFRICITIES SUMMIT IN KISUMU, KENYA

Following consultations with the Government of Kenya, the Council of Governors of Kenya and the lead partners in the organization of the Summit, namely UCLG World, UN Habitat, and United Nations Economic Commission for Africa (UNECA), the Executive Committee of the ninth edition of the Africities Summit to be held in Kisumu, Kenya, informs the public and interested institutions, organizations, associations and stakeholders, that the ninth edition of the Africities Summit initially scheduled on 26 to 30 April 2022, will be held on **17th to 21st May 2022 in Kisumu, Kenya.**

As a reminder, the theme of the 9th Africities Summit is: **“The Role of Intermediary Cities of Africa in the Implementation of Agenda 2030 of the United Nations and the African Union Agenda 2063”.**

These two Agendas call for the urgent need to develop resilient and sustainable urbanization in Africa, cognizant of the fact that by 2050 the bulk of African population will be living in cities, and that the majority of city dwellers will settle in intermediary cities. The improvement of the living conditions of the African people and the economic and social structural transformation of the African continent is therefore closely linked to the way the realization of these agendas will be addressed in African intermediary cities, which are for sure the places where Africa will be inventing her own approach and trajectory to sustainable human development based on her realities but also taking stock of the knowledge and experiences accrued across the world. As much as possible the development models to be implemented in Africa should be more energy efficient, low carbon, more inclusive and more resilient.

Do join us in Kisumu on 17 to 21 May 2022 at the Africities Summit, to be part of this endeavor in a place where Africa will be defining her new development trajectory based on African intermediary cities.
