BACKGROUND AND JUSTIFICATION

UN-Habitat is the coordinating agency within the United Nations System for human settlement activities and in collaboration with governments is responsible for promoting and consolidating collaboration with all partners, including local authorities, private and non-governmental organizations in the implementation of the Sustainable Development Goals (SDGs), in particular, Goal 11 of “Making cities and human settlements inclusive, safe, resilient and sustainable”, as well as the task manager of the human settlements chapter of Agenda 21 and focal point for the monitoring, evaluation and implementation of the New Urban Agenda adopted during the United Nations Conference on Housing and Sustainable Urban Development (Habitat III), in Quito, Ecuador 2016.

The UN-Habitat Regional Office for Asia and the Pacific (ROAP) was established in August 1997 in Fukuoka. The Office serves countries in the Asia and Pacific region to implement UN-Habitat’s mandate. Part of ROAP’s strategic role is to foster international understanding and cooperation and to foster regional, national, city, and local capacity and cooperation to enable sustainable local solutions and constructive partnerships within and between various stakeholder networks. To support this partnership-based approach, ROAP continues to promote appropriate policy and legal frameworks to enable these innovative solutions to be mainstreamed. ROAP addresses the increasing importance of systematic knowledge management, timely information flows, coherent awareness campaigns, and efficient sourcing of funding and know-how for locally defined development actions. Technical cooperation projects coordinated by the UN-Habitat ROAP are geographically spread in the Asia and Pacific region, and span the entire spectrum of urbanisation and shelter development issues. For most parts, UN-Habitat ROAP implements country projects through its country offices.

UN-Habitat has been actively supporting the Government of the Republic of Fiji with technical assistance on issues related to disaster risk reduction, climate change, and informal settlements upgrading. Fiji is further the hub for UN-Habitat’s Pacific programme with technical assistance provided to Kiribati, Samoa, Solomon Islands, Tuvalu, Vanuatu. Further partnerships with members of the Council of Regional Organizations in the Pacific (CROP Agencies) and UN-Agencies in support of the Pacific New Urban Agenda are coordinated from Fiji.
