4. Highlighted Results for 2024
   - Result 1 – Introduced in the 2022 Plan
   - Result 2 – Introduced in the 2023 Plan
   - Result 3 – Introduced in the 2024 Plan
5. Deliverables
In 2024, UN-Habitat will continue to promote urbanization as a positive transformative force for people and communities, reducing inequality, discrimination and poverty, and strengthening climate action.

The COVID-19 pandemic and current global crises have clearly shown that adequate housing for all and prosperous, just and green urban futures cannot be realized without inclusive and effective multilateralism, that acknowledges human rights and gender equality, and complements and reinforces national and local efforts towards sustainable development.

Access to adequate housing, SDG localization, climate action and urban crisis prevention and response will remain key priorities in 2024.

While the UN-Habitat programme of work continues to adapt to evolving conditions, financial resources are needed to adequately support Member States, and the Organization will continue to prioritize its work in line with the available resources.
The strategy for delivering the 2024 programme plan continues to be driven by the strategic plan for the period 2020–2023, recommended for extension to cover the period *2020-2025.

UN-Habitat will strengthen the transformative nature of its work and contribute to an enhanced role of Local and Regional Governments in implementing global agreements.
The programme plan for 2024 is based on the following assumptions:

(a) Adequate unearmarked extrabudgetary resources are available.

(b) Countries commitment to the New Urban Agenda and 2030 Agenda for Sustainable Development (SDGs).

(c) National and local governments continue to request for policy advice and technical assistance from UN-Habitat to develop and implement their urban policies, plans and strategies.

(d) Urban indicators, data and information are used to formulate policies, with adequate mechanisms available for impact monitoring and performance assessments.

(e) Social, political and macroeconomic conditions will not affect implementation of programmes and projects.
