

Together We Walk

Placing Water at the Centre of Urban Development

The session will discuss and showcase integrated water strategies and actions for rapidly growing cities implemented by partnerships of different stakeholders. These area-based strategies and actions go beyond sectoral or linear approaches by making smart use of this precious resource to tackle increasingly complex urban water issues. Guided by the Together We Walk App water-related challenges and solutions will be demonstrated in Manhattan. New York is a unique urban setting, and yet its water stories speak of universal relationships between water and cities.

- Ahmed Aboutaleb, Mayor, City of Rotterdam, the Netherlands
- Eva Muhia, Commissioner, Nairobi River Commission, Kenya
- Alexis Taylor, Vice President New York City Economic Development Corporation, USA (tbc)
