| KEY ORIENTATIONS AND CONSIDERATIONS

IMPLEMENTING
THE NEW
URBAN AGENDA

In 2025, UN-Habitat will continue to promote urbanization as a positive **transformative force** for people and communities, reducing inequality, discrimination and poverty, and strengthening climate action

The current global crises have clearly shown that adequate housing for all and prosperous, just and sustainable urban futures cannot be realized without inclusive and **effective multilateralism**, that acknowledges human rights and gender equality, and complements and reinforces national and local efforts towards sustainable development

United Nations Habitat Assembly II set the stage for accelerating the **implementation of the global agendas** and for translating the goals into concrete pathways for bold and transformative action, through the approval of 10 resolutions

UN-Habitat, across the subprogrammes, will aim to **strengthen the transformative nature** of its work and contribute to an enhanced multi-level governance and whole-of-government approach in implementing global agreements

The strategy for delivering the 2025 annual programme of work continues to be driven by the **Strategic Plan 2020–2025**, after approved extension to cover the period **2024-2025**.

Mid-term review

COVID recovery

Achieve SDGs

2025: UN-Habitat will strengthen the **transformative nature of its work** and contribute to a **multi-level governance and a whole-of government approach** in implementing global agreements.

| Key Elements of the Strategy for 2025

IMPLEMENTING
THE NEW
URBAN AGENDA

- 1 Focus on pathways to **transformative change**, investigate and elevate examples of cities impacted by innovate and progressive policies
- 2 Prepare a **transition plan for SP 2026-2029** including **transition plan** for the 4 Flagship programmes
- 3 Support implementation of the **UN-Habitat Assembly I and II Resolutions**
- 4 Advocacy, communication and outreach activities across the 4 subprogrammes and **mobilize public** and **political support**
- 5 Strengthen **capacity-building** initiatives, digitalization of tools and virtual e-learning. Monitor and report on global conditions and trends and provide evidence for policymaking
- 6 **Mainstream social inclusion** on women and girls, older persons, persons with disabilities, children and young people.
- 7 **Operationalize framework** for stronger collaboration with universities and centers of knowledge and research
- 8 **Deepen collaboration** with UNDCO to strengthen impact on Sustainable Urbanization

The programme plan for 2025 is based on the following **assumptions**:

(a) Adequate unearmarked extrabudgetary **resources** are available

(b) Countries **commitment** to the New Urban Agenda and 2030 Agenda for Sustainable Development (SDGs)

(c) National and local governments continue to request for **policy advice and technical assistance** from UN-Habitat to develop and implement their urban policies, plans and strategies

(d) Urban **indicators, data and information** are used to formulate policies, with adequate mechanisms available for impact monitoring and performance assessments

(e) Social, political and macroeconomic conditions will not affect implementation of programmes and projects

| STRATEGY - TRANSLATION OF THE KEY ELEMENTS INTO ADJUSTED STRATEGIES AT THE SUBPROGRAMME LEVEL
