2025 earmarked income allocation by UN-Habitat implementing region

2025 work programme overview

UN-Habitat is grateful for contributions received and appeals to Member States to provide their **core contributions for 2025** with the year drawing to a close.

Earmarked funds in USD*

MEMBER STATES CONTRIBUTORS IN 2025

Azerbaijan	13.00
Japan	7.60
Kenya	5.96
South Africa	4.95
United Kingdom	1.21
Switzerland	1.10
Spain	.94
Germany	.75
Italy	.52
Republic of Korea	.37
Kuwait	.33
China	.22
Cameroon	.13
France	.10
Mozambique	.10
Finland	.05
Total	37.33

* Most income agreements cover multiple years.
* The amount of acquisition received in currencies other than USD may have changed as compare to the previous interim reports due to the change of the foreign exchange rate.

OTHER DONORS CONTRIBUTORS IN 2025

UN Agencies	11.90
The Adaptation Fund	10.00
European Commission	5.96

Frequently Asked Questions (FAQ) – UN-Habitat Quarterly Funding Status Report

1. What is included in the Quarterly Funding Status Report?

The Quarterly Funding Status Report provides an overview of the latest total value of grants and financial contributions acquired in the last quarter and cumulative acquisitions from the beginning of the year up to the last month of reporting. For example, the August 2025 report will cover acquisitions from 1 January to 31 August 2025 and will be produced in September. The exception is the full-year report, which is typically issued in March of the following year to account for financial adjustments and accounting processes undertaken between January and March.

- Grant acquisitions refer to amount of funding indicated in signed contribution agreements or donors’ grant letters.
- Non-earmarked contributions are also included, though these are often received without formal contribution agreements.

2. How is acquisition different from revenue?

Acquisition refers to the full value of a grant as recognized at the time of signing the contribution agreement or donor commitment, regardless of whether the funds will be disbursed in multiple tranches over several years. For grants signed in currencies other than US Dollars, the Funding Status Report records their value in US Dollars at the time of signing. However, the actual US Dollar amount received is subject to exchange rate fluctuations at the time of disbursement, which can result in differences between the figures reported in the Funding Status Report and the revenue reports.

The Funding Status Report does not include other revenue sources such as bank interest, write-offs, refunds, adjustments, internal transfers between accounts, and transactions related to administrative grant management. These revenue sources are included in financial reports but not in the Funding Status Report. As a result, the figures reported in the Funding Status Report and financial reports will not always align.

3. How is the Quarterly Funding Status Report different from UN-Habitat’s financial reports?

While the Quaterly Funding Status Report includes some figures relevant for financial reporting—particularly those related to the regular budget revenue—it is not a financial report.

Instead, this report serves as a resource mobilization overview, providing insights into UN-Habitat’s funding acquisition progress and trends, rather than detailed financial accounting data.
