Interim financial status of the United Nations Human Settlements Programme as at 31 December 2025

Report of the Executive Director

I. Introduction

1. The present report provides an overview of the interim financial position of the United Nations Human Settlements Programme (UN-Habitat) as at 31 December 2025 and a description of the performance of the main funding segments of UN-Habitat, namely the United Nations regular budget appropriations provided to UN-Habitat and the Foundation non-earmarked, Foundation earmarked, technical cooperation and programme support funds, for the period 1 January–31 December 2025. It is an interim report pending the completion of the financial statements in accordance with the International Public Sector Accounting Standards (IPSAS) on 31 March 2026.

2. Table 1 provides an overview of funding as at 31 December 2025, showing the revenue, and expenses for all the major funding segments alongside the budget figures from the approved work programme for 2025. A statement of financial performance showing the revenue, expenses, fund balances and reserves for each funding segment is set out in annex I. The status of contributions to the Foundation non-earmarked fund for the years 2020–2025 is set out in annex II, and annex III shows the status of earmarked voluntary contributions as at 31 December 2025.

3. Table 2 shows a breakdown of all voluntary contributions received during the period by type of contributor, while table 3 shows voluntary contributions by region. As is shown in annex I, voluntary contributions comprise the majority of revenue. In the Foundation earmarked and technical cooperation funds, total voluntary contributions exceed net revenue because of outstanding refunds to donors, as is shown in annex I.

^a Regions are as defined by the General Assembly. (See United Nations, Department for General Assembly and Conference Management, “Regional groups of Member States”, available at www.un.org/dgacm/en/content/regional-groups.) In this table, the Western European and other States category includes the special cases of Türkiye and the United States of America.

II. Performance of core funds

4. The core funds of UN-Habitat are the Foundation non-earmarked fund and the regular budget fund.

A. Foundation non-earmarked fund

5. The resources of the Foundation non-earmarked fund, also known as the Foundation general purpose fund, are allocated against budget priorities approved by the Executive Board of UN-Habitat.

6. The main source of Foundation non-earmarked fund revenue is non-earmarked contributions from Member States. The Foundation non-earmarked fund constitutes a core source of funding for the implementation of the UN-Habitat strategic plan and for mandated normative work, executive direction and management and a baseline level of programme support.

7. The approved budget for the Foundation non-earmarked fund for 2025 came to \$4.7 million. As at 31 December 2025, total revenue amounted to \$4.0 million and expenses totalled \$4.7 million, resulting in a net operational deficit of \$0.7 million. Expenses consisted of \$3.7 million in post costs and \$1.0 million in operating expenses. A statutory operational reserve of \$3.0 million is provided for in accordance with Executive Board decision 2022/5. Revenue, expenses and closing net assets for the Foundation non-earmarked fund for the years 2016–2025 are shown in table 4 and in the figure below.

^a Projected data.

8. The figure below, which charts the trends in the Foundation non-earmarked fund during the period 2015–2025, shows the gradual decline, on average, in revenue in the years prior to 2022, alongside an average decline in expenses. Despite the implementation of financial austerity measures, in the years prior to 2022 expenses exceeded revenue, which resulted in a steady decline in net assets and in negative net assets at the end of 2020 and 2021.

9. In 2022, revenue reached its highest level since 2015 and, with reinvigorated expense controls in place, UN-Habitat reported its first surplus in more than a decade. As a result, the Foundation non-earmarked fund returned to solvency. In 2024, net assets increased to their highest level since 2016.

Trends in the Foundation non-earmarked fund

(Thousands of United States dollars)

^a Projected data.

10. In 2017, the secretariat approved a loan of \$3.0 million from the programme support fund to the Foundation non-earmarked fund. With the payment of the final instalment of \$1.0 million towards the loan in 2025, it has now been fully repaid.

B. Regular budget fund

1. Section 15

11. An appropriation approved by the General Assembly is provided to UN-Habitat under section 15 (Human settlements) of the United Nations regular budget. In 2025, the appropriation amounted to \$15.0 million. Because of austerity measures emanating from the liquidity crisis in the regular budget, the secretariat allotted \$12.3 million (82.0 per cent of the appropriation). Post costs accounted for 95.6 per cent of the \$11.4 million in expenses recorded as at 31 December 2025.

2. Sections 23 and 35

12. UN-Habitat also receives resources under section 23 (Regular programme of technical cooperation) and section 35 (Development Account) of the United Nations regular budget. In 2025, appropriations under section 23 amounted to \$1.4 million, of which 100 per cent of the appropriation

was allotted. As at 31 December 2025, \$1.3 million had been spent. Both the appropriation and the allotment under section 35 were \$1.8 million, of which \$1.8 million had been spent as at 31 December 2025.

C. Programme support fund

13. The 2025 programme support budget approved by the Executive Director totalled \$11.2 million. Total revenue as at 31 December 2025 amounted to \$14.7 million, while total expenses amounted to \$15.7 million, resulting in a deficit of \$1.0 million. Post costs represented 54.1 per cent of total expenses. The interim figures (subject to the finalization of the financial statements) indicate that UN-Habitat projects saw a decrease in closing net assets at the end of 2025, as shown in table 5.

14. Programme support resources are generated through a charge levied as a percentage of direct earmarked expenses, in accordance with the administrative instruction on programme support accounts.¹ That charge is for the recovery of incremental indirect costs to ensure that the additional cost of supporting earmarked activities is not paid from core funds. Revenue, expenses and closing net assets for the programme support fund for the years 2016–2025 are shown in table 5.

III. Performance of earmarked funds

A. Foundation earmarked fund

15. Voluntary contributions to the Foundation earmarked fund are intended for the implementation of specific activities at the global and thematic levels that are consistent with the mandate and the approved work programme of UN-Habitat.

16. For 2025, the revised budget came to \$54.0 million, while gross revenue as at 31 December 2025 before refunds to donors was \$52.3 million, mainly comprising voluntary contributions of \$50.5 million. For the period, net revenue after refunds to donors amounted to \$44.0 million. Total expenses incurred were \$53.3 million. Gross project balances at the end of the period amounted to \$109.0 million, including a reserve of \$4.0 million. The reported deficit of \$9.6 million is notional, as it results from the utilization of part of the project resources carried over from 2024.²

B. Technical cooperation fund

17. Voluntary contributions to the technical cooperation fund are for the implementation of specific technical activities at the country and regional levels that are consistent with the mandate and approved work programme of UN-Habitat.

18. The revised budget for 2025 came to \$94.3 million, while gross revenue as at 31 December 2025 before refunds to donors was \$116.7 million, mainly from voluntary contributions, which amounted to \$112.3 million. For the period, net revenue after refunds to donors amounted to \$110.9 million, while expenses were \$125.5 million. The reported deficit of \$14.6 million is notional, as it results from the utilization of part of the project resources carried over from 2024.² Gross project balances at the end of the period amounted to \$344.6 million, including a reserve of \$11.4 million.

¹ [ST/AI/286](#).

² Notional surpluses or deficits will cease to be realized after the implementation of International Public Sector Accounting Standard (IPSAS) 47 of 1 January 2026. With the introduction of IPSAS 47, revenue will mostly represent amounts of expenditure actually incurred under signed contribution agreements.
