

05 > DECLARATION HIGHLIGHTS

The **Cairo Declaration (16 June 2015)** emphasizes the importance of dialogue, supporting reforms and effective measures for sustainable urbanization in accordance with the 2014 Egyptian Constitution.

The Principles highlight: *Human beings as the focus of urban development, Quality of life for all, Social Justice, Inclusion, Decentralization, Citizens Participation, Sustainability, and Preservation of Cultural Heritage.*

Recommendations

- Design a housing policy that addresses structural imbalances with the active collaboration of the community.
- Develop the legal framework for a clear urban policy guideline to be consulted throughout the implementation, monitoring, and evaluation phases of urban renewal.
- Enable local administration units to provide their own public services and facilities.
- Encourage the participation of stakeholders during the urban upgrading processes at a local and national level.
- Promote city resilience through the use of renewable sources of energy, public transport, an integrated solid waste management and a feasible urban strategic plan.
- Create effective governmental evaluation procedures which guarantee the equal access of all citizens to housing facilities as well as to public services.
