

## Annexure C – Reading List

### Module 3: Planning for Climate Change

---

#### 1. Required Reading

UN Habitat. 2012. Developing local climate change plans: A guide for cities in developing countries. United Nations Human Settlements Programme (UN-Habitat). Read especially Section 2: Pages 25 through 96.

Download from: [www.unhabitat.org/downloads/docs/11424\\_1\\_594548.pdf](http://www.unhabitat.org/downloads/docs/11424_1_594548.pdf)

- ▶ *This book provides a very practical overview of the process of climate change planning, integrating both adaptation and mitigation and providing a range of approaches. The focus is on process, rather than on which policies to select. Section 2 is the most relevant to this module. The introductory section (section 1) will be useful background while the case study section (section 3) provides application lessons.*

#### 2. Recommended Reading
