Brief Background of the Project

UN-Habitat aims to support provision of adequate shelter for all, and sustainable human settlements development in an urbanizing world. In line with this mandate, UN-Habitat has been supporting member states including Kenya in developing well-planned and efficient human settlements, with adequate access to housing, infrastructure, and universal access to employment and basic services such as water, energy, and sanitation.

In 2016, UN-Habitat partnered with UNHCR and Turkana County Government to prepare an

integrated spatial development framework including a spatial plan for Kalobeyei Settlement that would reduce conflict and promote social cohesion among communities. UN-Habitat was engaged in stabilization and development activities supporting youth from host and refugee communities to be trained and accredited to perform public works. The project will (i) train registered groups and companies in business skills, financial management and bid proposal development, and (ii) deliver training to unskilled community members to conduct road rehabilitation works; It is expected in this phase to market those two groups and connect them with actual job providers by demonstrating their capability in road rehabilitation.

Main activities and outputs

The Implementing Partner will be undertaking main activities as follows (but not limited to):

- Ensure close collaboration with UN-Habitat Kakuma Sub-Office for aligning the process with UN-Habitat approaches;
- Deliver training in business skills including financial management, marketing, tender document preparation to local groups and companies;
- Support registration and legal documentation of groups;
- Organize skill training in road rehabilitation to unskilled community members;
- Organize a bidding process for road rehabilitation works;

- Ensure O&M mechanism is in place before completion of the facility.
